

Monitoring Priority: Preschool LRE

Overview of the Annual Performance Report (APR):

The Rhode Island Department of Education (RIDE) first compiled and analyzed data for the development of the Annual Performance Report (APR)/State Performance Plan (SPP) utilizing the expertise of internal personnel. A draft along with the data was reviewed with the Rhode Island Special Education Advisory Committee (RISEAC). RISEAC advises the Commissioner and Board of Regents for Elementary and Secondary Education on matters concerning: (a) the unmet educational needs of children with disabilities; (b) comments publicly on any rules or regulations proposed by the State regarding the education of children with disabilities; (c) advises the Rhode Island Department of Education in developing evaluations and reporting on data to the Secretary under section 618 of the IDEA; (d) advises the RIDE in developing corrective action plans to address findings identified in Federal Monitoring Reports under Part B of the IDEA; and (e) advises the RIDE in developing and implementing policies relating to the coordination of services for children with disabilities. Membership of the committee is composed of individuals involved in or concerned with the education of children with disabilities. Parents of children with disabilities birth through 26 maintain the majority of the Committee Membership. The Membership also includes individuals with disabilities, teachers, representatives of institutions of higher education, private schools, charter schools, state and local education officials, administrators of programs for children with disabilities foster care and homelessness, vocational, community or business organizations, juvenile and adult corrections and State Child Serving Agencies. The SEAC reviewed the draft and provided suggestions and input. These were incorporated into the final copy of this document

Indicator 6: - Percent of preschool children who received special education and related services in settings with typically developing peers (e.g., early childhood settings, home, and part-time early childhood/part-time early childhood special education settings.)

Measurement:

For the February 1, 2009 submission of the APR, please note the following: The instructions for collecting preschool least restrictive environment (LRE) data under section 618 State-reported data requirements were revised for the 2006-2007 school year. The new preschool LRE 618 collection is significantly different from the previous collection, and not consistent with Indicator 6: therefore States <u>need not report on Indicator 6</u> for FFY 2007.
